good company...great location...craft beer...specialty pizzas...raffle prizes...all for charity!

Breakfast Event for Nonprofits, Gov't Officials & Stakeholders

Did you know HBCF involvement in projects can save nonprofits thousands of dollars in construction costs?

Friday, June 2nd at 9:00 a.m.
MARYLAND CENTER FOR HOUSING

Join us for coffee and conversation about how our charitable construction program can help local non-profits and community-based housing programs.

First Shelter Projects of the Year Take Shape

Home Builders Care helps strengthen communities by building and renovating community-based supportive housing facilities.

Every year our completed projects benefit hundreds of vulnerable families and individuals in need. Here are some of our latest efforts:

Helping the ARC of Howard County Create New Units of Supportive Housing

A newly acquired ARC property is not only getting needed accessibility improvements, but is also receiving necessary upgrades to its outmoded utility services and connections.

Building Safe Spaces While Solving Stormwater Problems at a Domestic Violence Shelter

A 43-bed Prince George's County safe house is getting some needed repairs done this Spring. Deck reconstruction, porch repairs, yard re-grading and more will enhance the daily living for families in crisis.

Enhancing Safety and Accessibility with a Baltimore County Nonprofit

Say hello to Chris! Her community living group home in Middle River is under construction. HBCF is lending our assistance to Unified Community Connections to expand the bathroom to better fit the needs of its disabled residents and their caregivers.
